AUTHOR INDEX VOLUME 12 1975

		Issue
Alspaugh, John W.	Using the Computer to Analyze Teacher Salary Proposals	2
Baker, Alen D.	A Natural Language History Tutor	3
Bay, Kyung S.	A Random Walk Simulation Model for Enrollment Projections	2
Boche, Raymond E.	A Registration Algorithm with Equitable Allocation under Conditions of Extreme Scarcity	3
Bonar, John R.	Conducting a Survey of Alumni: Some Procedural Considerations	4
Caruthers, Flora A	Conducting a Survey of Alumni: Some Procedural Considerations	4
Falcone, John	A Model for University Computer Center Budgeting	2
Grace, M.	A Random Walk Simulation Model for Enrollment Projections	2
Grace M.	Markov Chain Model for Enrollment Projections	2
Graziano, Anthony	A Model for University Computer Center Budgeting	2
Haines, Ray	Surveys of College Application Forms	4
Hanson, J.	Markov Chain Model for Enrollment Projections	2
Harting, Roger D.	Using the Computer to Analyze Teacher Salary Proposals	2
Hershkowitz, Sandra	Interactive Testing-Evaluation in an Introductory Computer Science Course	1
Honeycutt, Thomas L.	A Modified Cast Study Method for Teaching Management Information Systems	1
Humphrey, John H., Jr.	A Modified Case Study Method for Teaching Management Information Systems	1
Lemos, Ronald S.	Fortran Programming: An Analysis of Pedagogical Alternatives	3
Masters, Robert J.II	Departmental Planning-Budgeting System (DPBS)	1
